SIEMENS

3-year warranty for Siemens automation equipment!*

Dear Customers,

Recently, we have have observed a trend where many unauthorized sources of equipment supply appear on the market. When using such equipment, you face additional threats and risks, such as the absence of a manufacturer's warranty, unclear legality and quality, the inapplicability of the equipment for the European region, the supply of equipment that has been used or manufactured long time ago.

By purchasing equipment from unauthorized suppliers, you put both your financial security and company reputation at risk. We encourage you to rely only on official sources of supply when purchasing Siemens equipment, thus protecting your business from additional threats.

We would like to point out that Siemens automation equipment supplied through the Siemens Lithuania is covered by a 3-year warranty*. When purchasing equipment from Siemens Lithuania official suppliers, please require confirmation that the equipment is covered by a 3-year warranty.

*The extended warranty applies to the following product groups - Simatic controllers, Simatic panels, ET200SP systems, Simatic power supplies purchased between 2025.09.15 and 2027.09.30. The extended warranty aplied only on active products.

Why is it important to buy equipment from official sources of supply?

To protect your business from additional risks and threats, we encourage you to choose official sources of supply for Siemens equipment. Only an official Siemens equipment supplier can guarantee the supply of quality equipment and provide technical support and extended warranty.

Did you know: Siemens automation equipment purchased from Siemens Lithuania official suppliers is covered by a 3-year warranty.

| Technical Support | Free extended warranty | Reputation protection | Legal compliance | Equipment quality |

Is my source of supply official?

We invite you to check whether the source of supply for your Siemens equipment is official. You can do this by asking the supplier to provide an official letter from the manufacturer or by contacting us info.lt@siemens.com.
